

**Item P16-0242**

**Justrite® Mesh Cylinder Storage Cabinets**

Durable and secure, non-rusting, weather resistant, storage cabinets for LPG and compressed gas cylinder tanks. All welded aluminum construction stands up to abusive outdoor elements. Unique slanted roof design sheds rain and ice. Quick-look, wire mesh sides prevent potentially dangerous gas build-up. Heavy gauge aluminum is 66% lighter than steel for easy handling and placement. Extruded heavy duty frame construction adds to cabinet strength. Comes with four labels (2) warning and (2) identification. Ships direct from manufacturer fully assembled. Complies with NFPA 58 for LPG storage and OSHA 1910.110 requirements.

Item	Description	Attributes
